

Student assistant (Hiwi) position

Job description:

A student assistant (Hiwi) position is open in the Department of Molecules-Signaling-Development at the MPI of Neurobiology starting from March 2022.

The contract is for a total number of 40 hours a month and it should last for at least 1 year.

We are looking for highly motivated and reliable students, preferably in their BSc degree. Their job will consist in:

1. Managing mice colonies according to institute rules and organization
2. Ear tagging and tail collection, for mice identification
3. Mouse genotyping, using various PCR reactions and Agarose gels preparation
4. Brain tissue sectioning for histological analysis (eg. immunohistochemistry)

To apply, please send your CV and a short motivational statement to yleniam@neuro.mpg.de.
